

# Innovative Medical Solutions™

A powerful suite of comprehensive medical screening solutions designed to reduce risk in the health care setting by assisting in the verification of practitioner credentials and the identification of sanctioned individuals.

## **I-MED™ Levels 1, 2 & 3**

### **Innovative Medical Sanctions Database™**

Examines multiple state and federal sources to assist in the identification of health care providers who may have histories of federal or state-level disciplinary actions or disqualifications, or may otherwise place your organization at increased risk.

## **I-CRED™**

### **Innovative Credentialed Practitioner Database™**

Assists in verifying that an individual is authorized by the Drug Enforcement Administration to handle controlled substances under the Controlled Substances Act.

## **I-PRO™**

### **Innovative Provider Licensure Database™**

Examines state licensing authorities to validate the licensure or registration status of credentialed medical providers.

## **I-P.O.D.**

### **Innovative Provider Observation Database™**

Contains historical and updated information from the National Provider Identifier (NPI) registry.
